MACHINERY WORLD

MODEL ABT- K5P

Blast Chiller – Blast Freezer

5 trays 600 x 400

CONSTRUCTION :

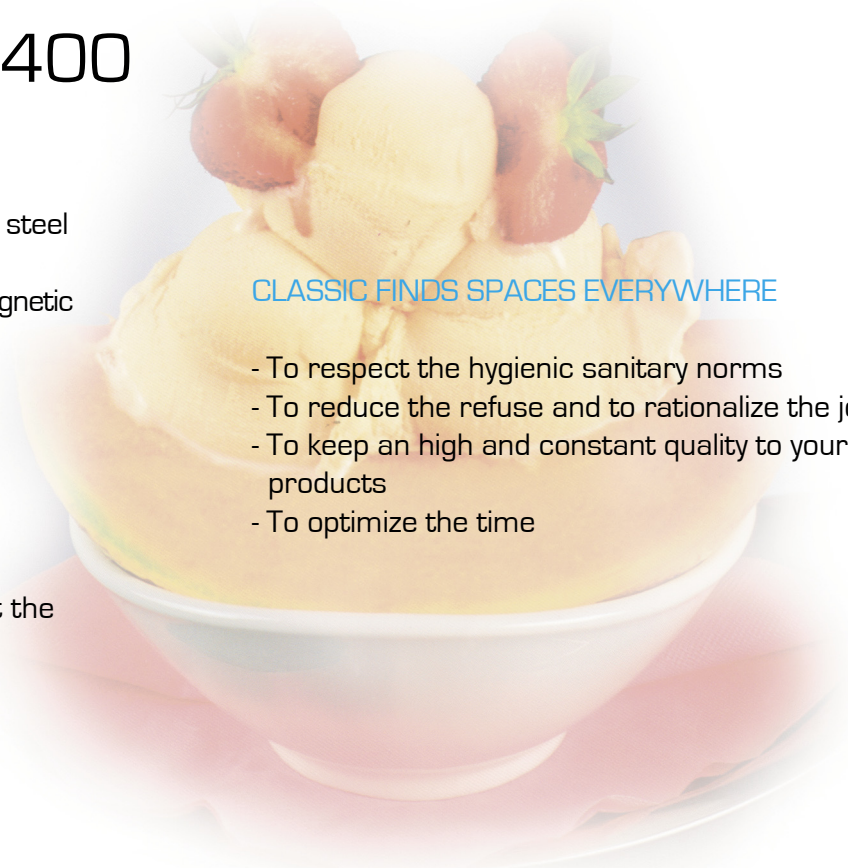

- Entirely constructed of stainless steel AISI 304 18/10
- auto closing door with heated magnetic packing
- Trays structure removable
- Core probe included

ELECTRICAL CONTROLLER :

- set positive/negative
- soft/hard set (thermic shock)
- algorithm of system to prevent the frost on the product

CLASSIC FINDS SPACES EVERYWHERE

- To respect the hygienic sanitary norms
- To reduce the refuse and to rationalize the job
- To keep an high and constant quality to your products
- To optimize the time

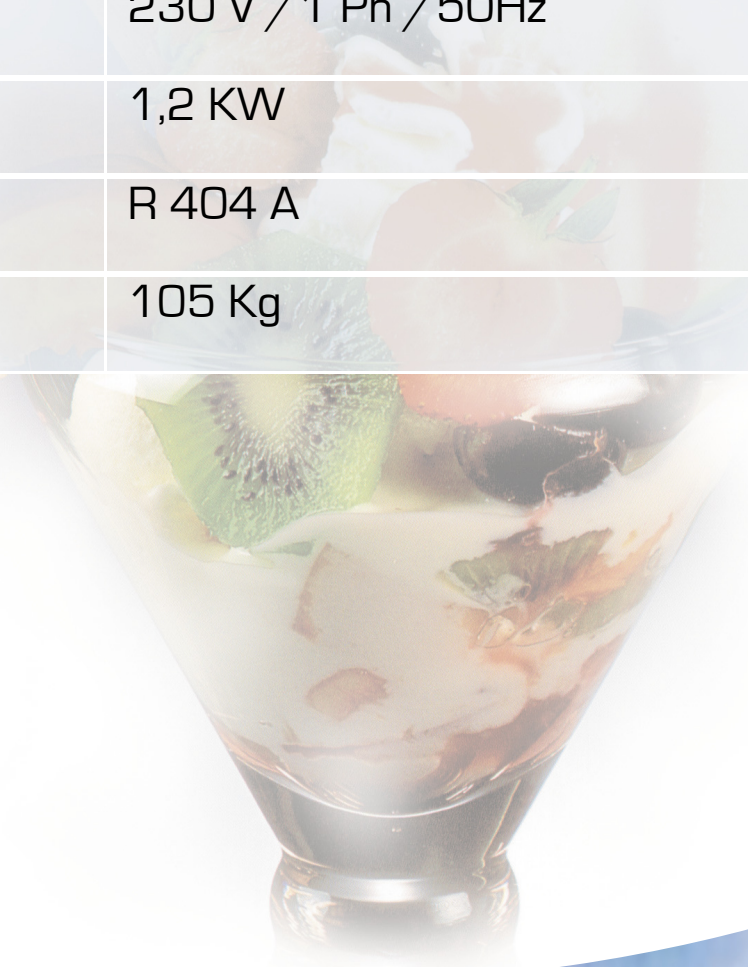

MODEL ABT - K5P

Technical Card

Capacity	5 trays 600X400
Performance	Blast chiller: +70°C +3°C 20 Kg Blast freezer: +70°C -18°C 12 Kg
Internal dimension	L:700 P:450 H:375 mm
External dimension	L:820 P:700 H:900 mm
Supply voltage	230 V / 1 Ph / 50Hz
Electrical consumption	1,2 KW
Refrigerant	R 404 A
Total weight	105 Kg
